Company	: Kuwait Transcontinental Shipping Company
Industry	: Shipping, Logistics & Freight Forwarding
Employees	: 150
Website	: <a href="http://www.ktskwt.com">www.ktskwt.com</a>

## CUSTOMER SPEAKS

“ KTS was executing the monthly payroll on a manual basis & Management reports were provided by the regular filtration process from Excel spread sheets. However, with eNfinity HR & Payroll module, KTS has resorted to contemporary HR system where in its automated payroll with pay slips, various systems generated reports & a very accurate data management system.

More over the flexibility levels in the reporting tools, the product & business knowledge exhibited by Expert Business Solutions was highly sophisticated. All in all, surely a leap ahead for KTS as far as Human Resources & Administration function is concerned due to value addition generated by this system implementation.

Thanks!!
